# SOLIDARITY IN HEALTH CARE

MARCH 19, 2015

## Three Theses

---

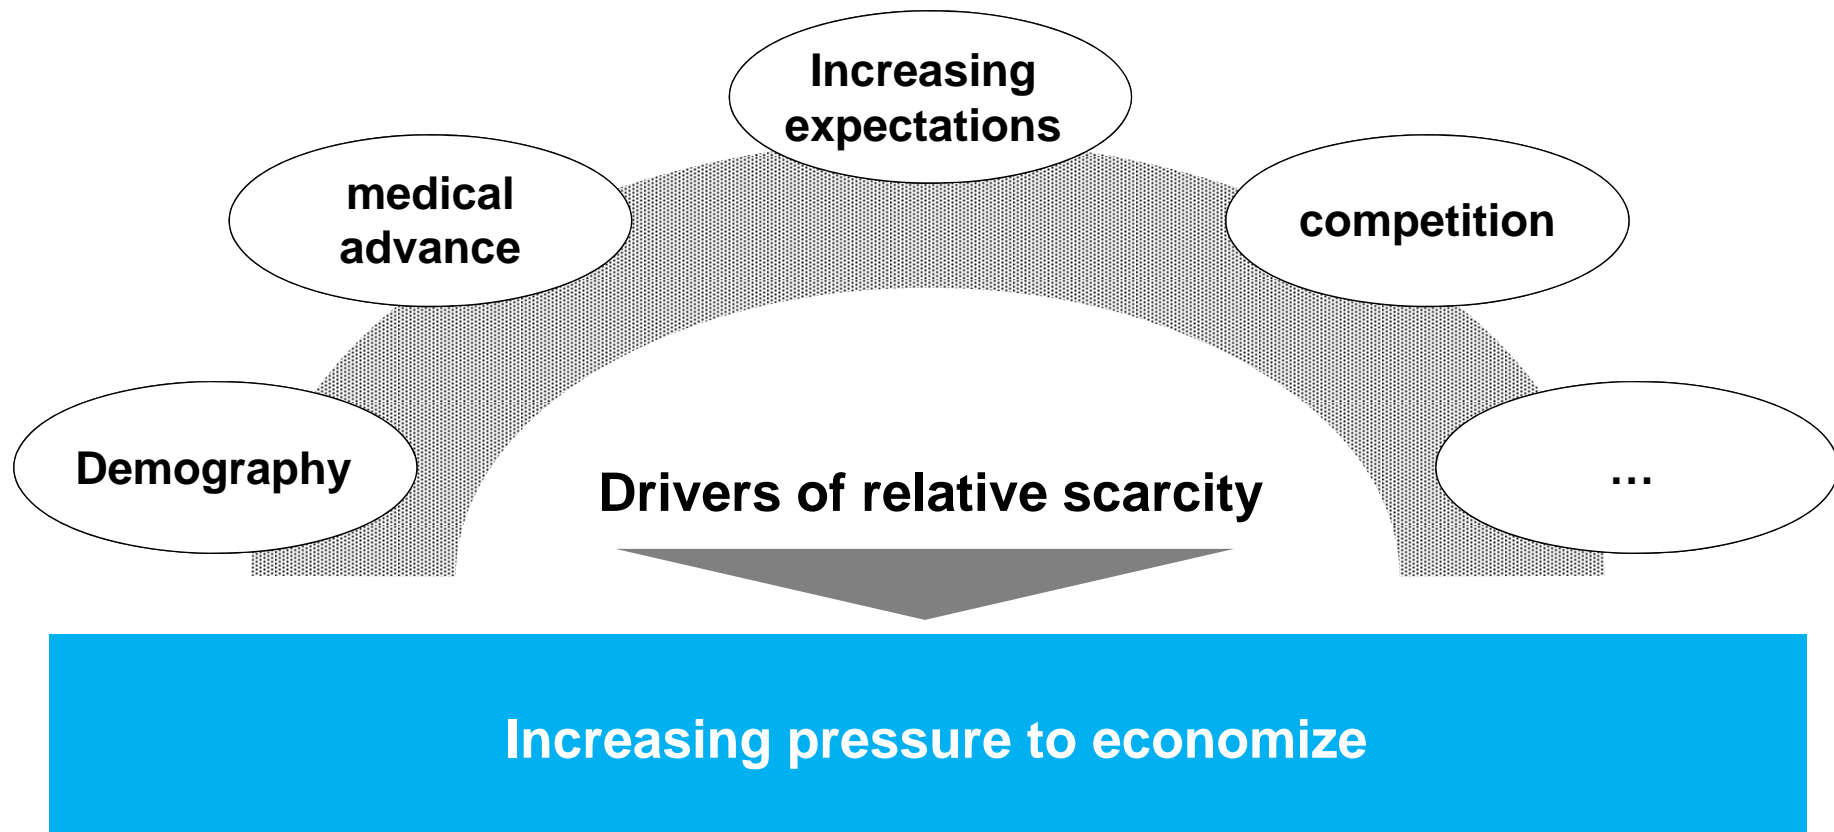

The tension between solidarity and economic efficiency in the health care sector will increase

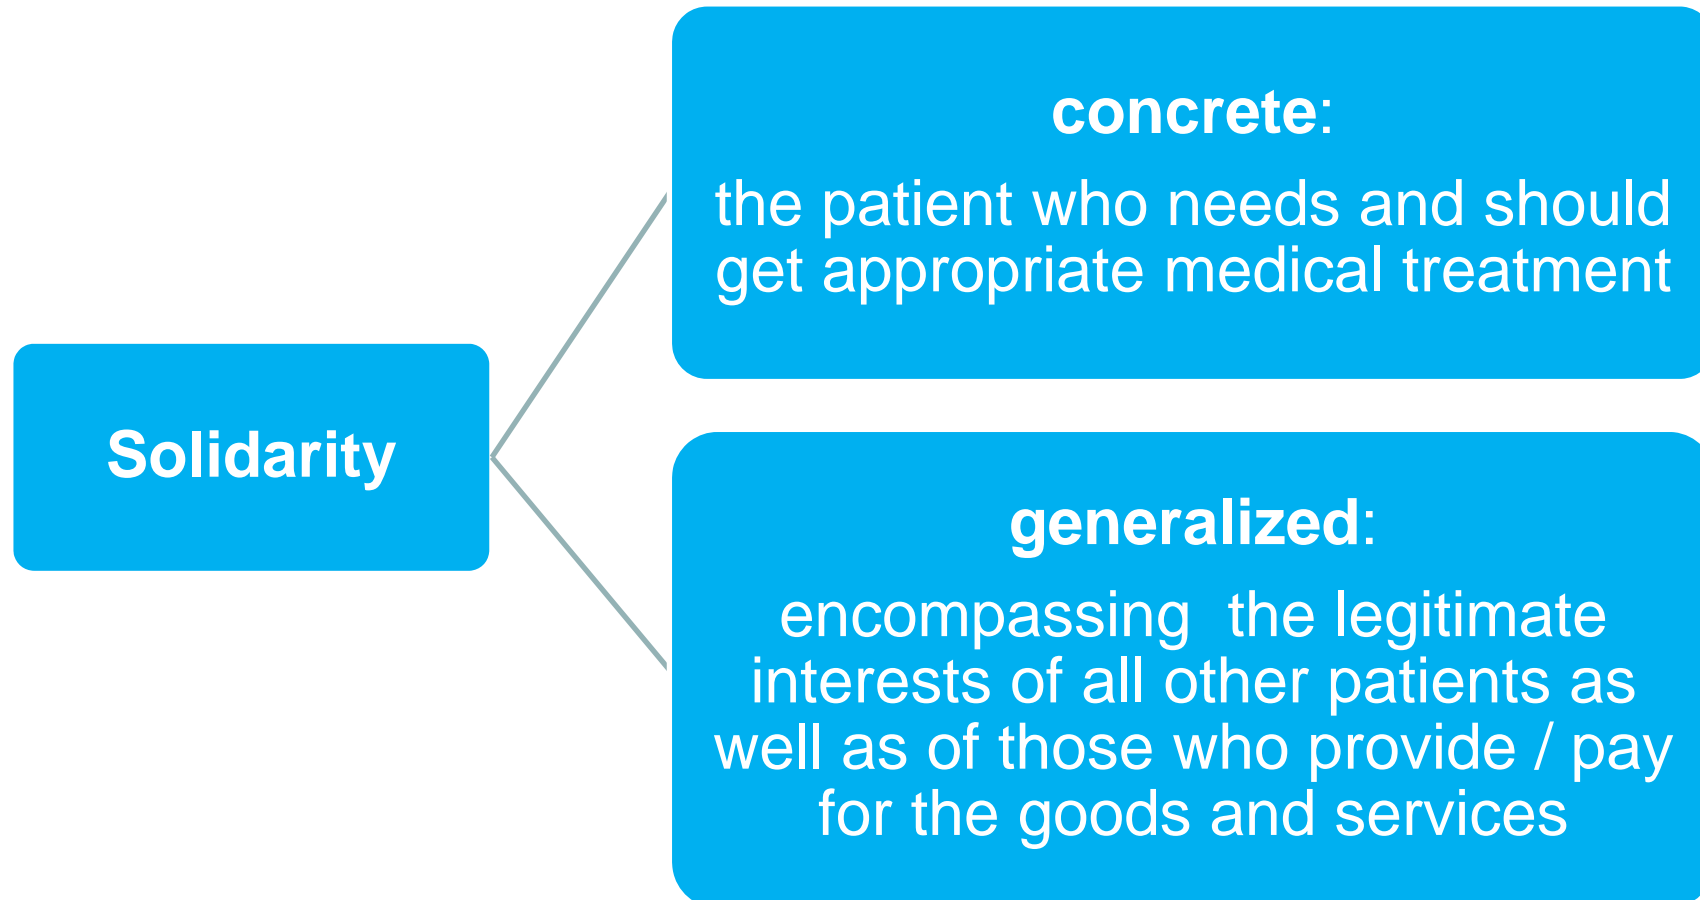

It is important to acknowledge the ethical relevance of economic considerations and aspects

Economic (efficiency) considerations must not become the *predominant* criterion in the health care sector.

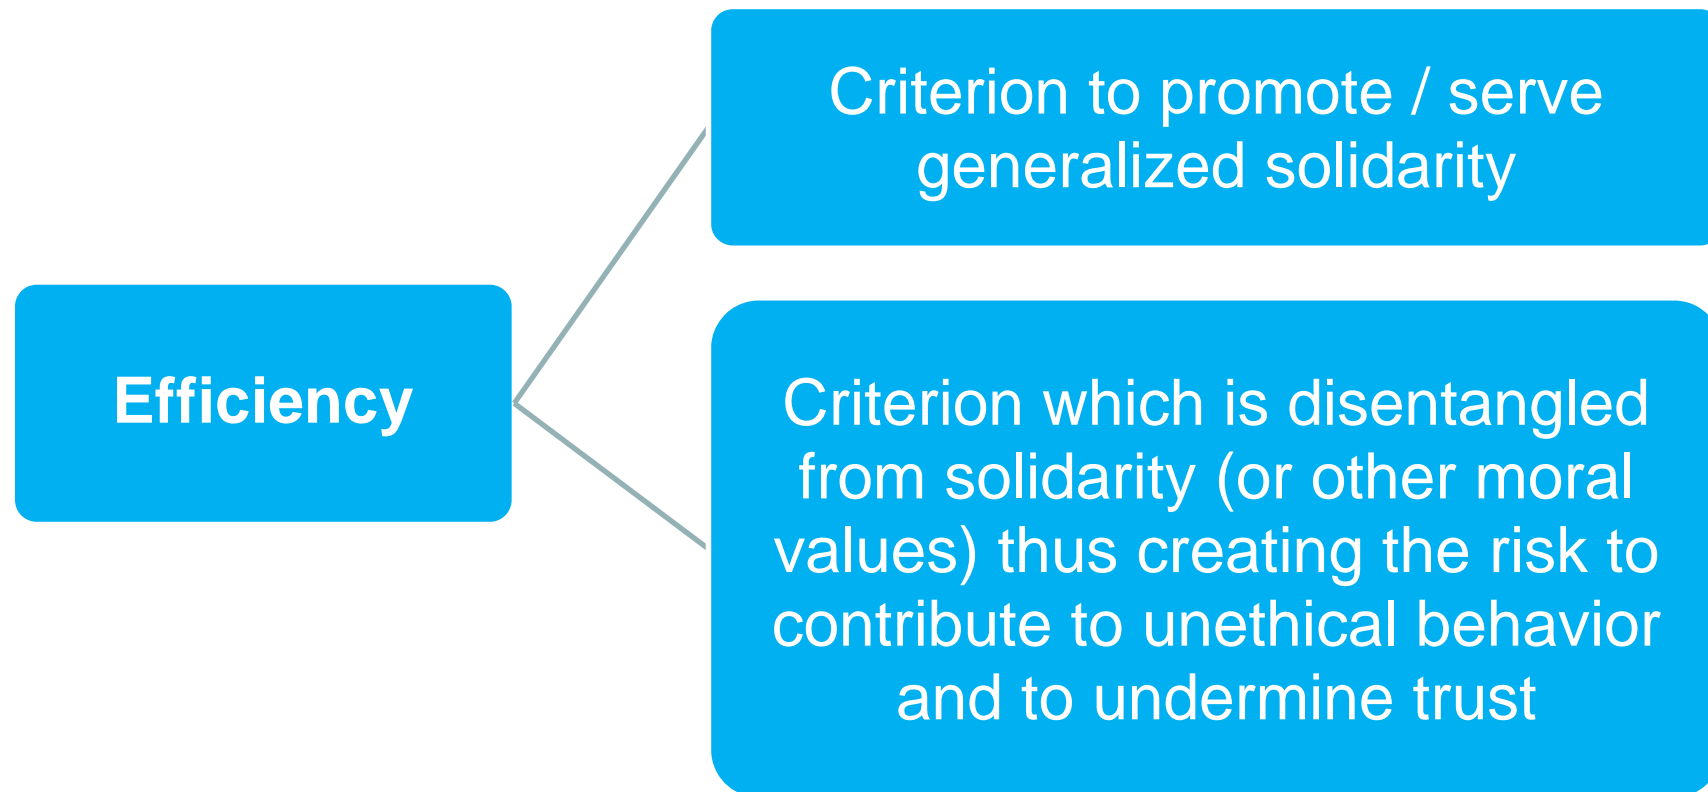

# The tension between solidarity and economic efficiency will increase

# The ethical relevance of economic considerations and aspects

# Economic considerations must not dominate other criteria
